

## Advances in Climate Change and Arctic Health

Guest Editors:

**Prof. Dr. Arja Rautio**

**Dr. Khaled Abass**

**Dr. Anastasia Emelyanova**

**Dr. Ulla Timlin**

Deadline for manuscript  
submissions:

**closed (28 March 2023)**

### Message from the Guest Editors

The Arctic is a sparsely populated, but important part of the whole globe, as it reflects the immediate effects of climate warming, long-range transport of contaminants, the increase in human activities and migration, and existing and emerging infections, such as zoonotic diseases. The adaptation and mitigation strategies of local settlements and Indigenous peoples are essential for good living conditions, food safety, and quality of life. The multidisciplinary cross-sectorial pan-Arctic collaboration, co-producing knowledge and community-based participatory approach, are needed to reach these goals. The One Health paradigm is useful for improving the health and wellbeing of Arctic populations in seeking solutions to existing environmental threats and preparedness for future challenges and hazards.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
