

COVID-19 in North America: Clinical, Psychosocial, Laboratory, and Epidemiological Aspects

Guest Editors:

Prof. Dr. Amal K. Mitra

Prof. Dr. Dawn Bishop McLin

Prof. Dr. Abdullah Baqui

Dr. Sarah Buxbaum

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

COVID-19 has emerged as a major pandemic affecting at least 212 countries and territories. The U.S. is the country most affected by this pandemic in the world. In this context, the editors of the *International Journal of Environmental Research and Public Health (IJERPH)* have initiated a Special Issue of the journal - COVID-19 in North America: Clinical, Psychosocial, Laboratory, and Epidemiological Aspects. As the name of the Special Issue suggests, the editors intend to make the focus of the Special Issue North America due to the current situation in these countries.

The subject areas may include epidemiology, risk factors, the disease burden, societal impact, psychological effects, pathogenesis, immunology, microbiology, vaccines, clinical presentations, causes of death, autopsy findings, management, treatment algorithms, diagnostic scoring systems, clinical trials, machine learning, predictive models, etc.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
