Deadline for manuscript  
submissions:

**closed (31 March 2021)**

### Message from the Guest Editors

In the past several years, the otorhinolaryngology sector had a significant impact on social life. About 10% of the cancer that affects the population annually concerns the head and neck, and each year the guidelines evolve and change.

The emergencies of the otolaryngology sector are among the most common, with numerous increases in hospitalizations in the ENT department (e.g., bleeding, abscesses, and dyspnoea). Interventions in the election can significantly improve patients' quality of life and help avoid future complications.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
