Message from the Guest Editors

In this special issue in the International Journal of Environmental Research and Public Health, we plan to bring together research that debates/provides innovative health workforce solutions directed towards meeting population needs, either in the form of integrated solutions or models of care. We also welcome articles that cover challenges at an education or regulation level required to facilitate such innovative health workforce solutions. Titled “The Future Health Workforce: Integrated Solutions and Models of Care”—we plan to include a wide range of health workforce articles that spreads across all health professions or disciplines (medicine, nursing, pharmacy, dentistry and allied health). We encourage both quantitative as well as qualitative research articles, as well as systematic reviews. Well written articles displaying methodological rigor will be preferred. We welcome articles from different countries (low, middle and high income) as well as different contexts (populations or diseases).

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, GEOBASE, EMBASE, Chemical Abstracts, and many other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2020).
