Deadline for manuscript submissions:

closed (31 July 2020)

Message from the Guest Editors

A Special Issue of *IJERPH* focusing on Health-EDRM has published 19 papers successfully since 2018 describing/reporting the latest disaster risks and health risk analyses, as well as interventions for health-related disaster risk management. In response to the emerging research needs in Health-EDRM, a second edition of the Special Issue is now calling for submissions. Disaster risk profiling and interventions can be at the personal/household, community, and system/political levels, and can be targeted at specific health risks including respiratory issues caused by indoor burning, re-emergence of infectious disease due to low vaccination coverage, and gastrointestinal problems resulting from unregulated waste management. Research outcomes and findings of multi-disciplinary studies are highly encouraged to submit to this Special Issue.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded (Web of Science), Social Sciences Citation Index (Web of Science), MEDLINE (PubMed), Scopus (Elsevier) and other databases. Full-text available in PubMed Central.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2020).
