Message from the Guest Editors

Dear Colleagues,

The proportion of elderly citizens is continuously increasing in most of the industrial world. The current demographic trend is characterised by increased longevity and lower fertility rates and is leading to an increasingly ageing population. The retirement age in many countries is being postponed in order to adapt the economic and budgetary implications of increased longevity to the new demographic distribution. Older people are encouraged to keep working and to participate in the labour force for as long as possible. The demographic situation stresses the importance of factors that motivate older employees and self-employed individuals to keep working and to maintain their employability until an older age, as well as the organisations and enterprises to care for their employees’ employability until an age older than the one considered, so far, the retirement age.

Kind regards

Prof. Dr. Kerstin Nilsson
Dr. Tove Midtsundstad
Prof. Dr. Peter Lundqvist

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, GEOBASE, Embase, CAPIlus / SciFinder, and many other databases.

**Journal Rank:** *JCR* - Q1 (*Public, Environmental & Occupational Health*) / 2020

*CiteScore* - Q2 (*Public Health, Environmental and Occupational Health*)
