Message from the Guest Editors

Dear Colleagues,

Professors Jack Bend and Regna Darnell are organizing a Special Issue on “Indigenous Health in Canada: Integration of Participatory Community-Based Environmental, Health, Medical, Natural and/or Social Sciences Research to Mitigate Disparities in Wellness” in the *International Journal of Environmental Research and Public Health (IJERPH)*. *IJERPH* is a peer-reviewed scientific journal that publishes research articles examining the intersection of the environment in its broadest definition and public health. For detailed information regarding the journal, please refer to <https://www.mdpi.com/journal/ijerph>.

This Issue will highlight new and traditional research and analyses on the environmental (social and physical) determinants of health amongst the Indigenous in Canada, with the goal of identifying how best to increase their wellness. Original research papers, meta-analyses, systematic reviews, case studies, conceptual frameworks, commentaries, editorials, and policy-relevant articles are solicited for this Issue. Of special interest are articles outlining novel approaches to solving these complex problems that are community-based.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
