### Dr. Saijun Zhang

Department of Social Work, School of Applied Sciences, University of Mississippi, Garland Hall, University, MS 38677, USA

## **Message from the Guest Editors**

We invite you to contribute to this Special Issue of IJERPH entitled "LGBTQ+ Bullying and Negative Psychosocial Outcomes: Identifying Protective and Resilience Factors". We are seeking empirical research articles and reviews of the literature on topics related to bullying experiences of adolescents (ages 10–21) who identify as LGBTQ and protective factors that moderate the association between bullying based on sexual orientation and gender-identity-associated outcomes. We encourage researchers who are interested in this Special Issue to contact us at fl4684@wayne.edu and espelage@unc.edu.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase,

GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
