Kong, China

Deadline for manuscript  
submissions:

**closed (15 October 2019)**

### **Message from the Guest Editor**

Mathematics and statistics play a vital role in many fields in environmental research and public health, and provide the theories and tools that have been widely used in all areas of environmental research and public health.

A Special Issue on “Mathematical and Statistical Models in Environmental Research and Public Health with Applications”, edited by Wing Keung Wong, will be devoted to advancements in mathematical and statistical models with applications in different areas of environmental research and public health. This Special Issue will also bring together practical, state-of-the-art applications of mathematics, probability, and statistical techniques in environmental research and public health. We invite investigators to contribute original research articles that advance the use of mathematics, probability, and statistics in the areas of environmental research and public health. All submissions must contain original unpublished work not being considered for publication elsewhere.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Paul B. Tchounwou**

Lane, Baltimore, MD 21251, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
