Dr. Tahani K. Alshammari

Department of Pharmacology and Toxicology, Pharmacy College, King Saud University, Riyadh 11362, Saudi Arabia

Dr. Dominika Ochnik

Faculty of Medicine, University of Technology, 43 Rolna Street, 40-555 Katowice, Poland

Message from the Guest Editors

The central goal of this issue is to generate recent collections that would help update the current status, tackle mental health issues, re-shaping the existing services, and provide effective preventive measures. Participants are encouraged from social sciences (psychology, sociology, pedagogy) and medical sciences. All submissions in line with our central goal are welcome, including original cross-sectional and longitudinal studies, systematic reviews and meta-analysis studies. The output of this topic would profoundly affect the status of a preexisting mental condition in healthy individual, clinical samples, and health care professionals.

Deadline for manuscript submissions:

closed (31 October 2022)

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
