Department of Oral and
Maxillofacial Sciences, Sapienza
University of Rome, 00161 Rome,
Italy

Deadline for manuscript
submissions:

closed (30 September 2020)

Message from the Guest Editor

I would like to invite you to submit a contribution to a Special Issue on Prevention and Oral Health in the *International Journal of Environmental Research and Public Health*.

Oral health is an important factor in the maintenance of general health, wellbeing, and overall quality of life. Envisioning a transformational change in the management of oral healthcare, this Special Issue welcomes manuscripts that can contribute the knowledge necessary to effectively manage oral prevention and oral healthcare.

This Special Issue will focus on oral health and prevention and their impact on clinical practice current oral health literacy and policies. The listed keywords suggest just a few of the many possibilities.

Preventive strategies should be implemented to reduce oral problems, due to the negative consequences on individuals and communities in terms of pain and suffering, functional impairments, and reduced quality of life. Psychosocial factors, such as improved awareness, knowledge, and attitudes toward dental health care in both children and adult patients, healthy or special needs ones, are included in general health status improvements.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
