Deadline for manuscript
submissions:

closed (31 March 2021)

Message from the Guest Editor

For this *IJERPH* Special Issue, we welcome submissions on a range of topics relevant to resilience and improvisation at the frontlines of healthcare, including:

- Resilience and workarounds at the frontlines of healthcare under stressful situations;
- Improvisational responses of frontline healthcare workers to the COVID-19 pandemic;
- Psychological and emotional responses of frontline healthcare workers to the COVID-19 pandemic;
- Impact of the work environment on the mental and emotional health of frontline healthcare workers;
- Advances in the use of telehealth and other types of information and communication technologies at the frontlines of patient care delivery;
- Use and influence of social media at the frontlines of healthcare delivery;
- Role of healthcare leadership in developing a culture of safety in healthcare organizations;
- Strategies for developing a learning culture for patient safety and systems improvement;
- Strategies for developing effective interprofessional communication and teamwork in healthcare delivery;
- Strategies for the successful implementation of evidence-based practices to improve safety and quality at the frontlines of healthcare.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
