Message from the Guest Editors

This Special Issue offers an opportunity to jointly publish high-quality multidisciplinary research and reviews to describe the social determinants of sexual health and behaviors; the role of sexuality in interpersonal and public health communication; personal, relational, cultural, and environmental factors affecting people's sexual communication and experiences; and effective communication and intervention strategies to promote sexual health. New research, intervention studies, and innovations in messaging, as well as reviews of the field are welcome.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
