Message from the Guest Editors

Dear Colleagues,

Covid-19 has directly affected the global economy. Tourism has been one of the sectors most affected by the stage of confinement that the novel coronavirus has inaugurated. The World Tourism Council has estimated a global loss of 75 million jobs and \$2.1 trillion in revenue. Furthermore, the sector may experience a 25% reduction in its business. In this context, the need arises to seek new projects, initiatives, and proposals for the tourism sector that enhance aspects related to health and respect for the environment. This Special Issue aims to reflect on the impact of Covid-19 in the tourism field and on the transformations that this crisis will generate in the world of travel, the culture of travelers, and projects related to the tourism sector.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and many other databases.

Journal Rank: JCR - Q1 (*Public, Environmental & Occupational Health*) / CiteScore - Q2 (*Public Health, Environmental and Occupational Health*)
