Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

Dear Colleagues,

We invite you to submit critical reviews and original research for a Special Issue on tactical populations. In this instance, tactical populations include those serving in military, paramilitary, law enforcement, fire and rescue, and paramedical occupations. Submission of papers that underpin the health and safety of tactical populations, and therefore the public that they serve, are welcome. Topics may focus on the recruitment, retention, and rehabilitation of tactical personnel across their occupational lifespan (from initial training through to retirement).

We thank you for considering this invitation and are available for any inquiries.

Dr. Robin Orr

Dr. Jay Dawes

Dr. Robert Lockie

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
