ICON plc, Dublin 18, Ireland
2. School of Health Sciences,
University of Nottingham,
Nottingham NG7 2HA, UK

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

This Special Issue in the International Journal of Environmental Research and Public Health follows on from a collection of 30 papers published in the successful "Workplace Health and Wellbeing 2019" issue. It will make a substantial contribution to the understanding of contemporary workplace health and wellbeing issues; the influence of health and wellbeing on individual and organisational outcomes; and the impact of workplace strategies, policies, and interventions on individuals and employers.

A wide range of topics included to but not limited to the mental and physical wellbeing of employees and particular occupational groups; psychosocial risk factors; the implementation and effectiveness of workplace wellness programmes; the engagement of line managers in workplace health initiatives, promoting healthy lifestyles at work; health screening interventions in workplace settings; the prevention or management of chronic conditions at work; the impact of health on the capacity of employees to work; studies around wellbeing and recruitment and/or retention; and the impact of workplace interventions on work engagement, work performance and/or productivity.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
