Asbestos Exposure and Disease: An Update

Guest Editors:

Message from the Guest Editors

Prof. Dr. Corrado Magnani

Dear Colleagues,

Dr. Alison Reid

Dr. Eduardo Algranti

Dr. Daniela Ferrante

Deadline for manuscript submissions:

closed (31 May 2019)

Adverse health effects caused by asbestos exposure are an important global health issue. In the countries where antiasbestos policies have been effectively applied, malignant mesothelioma has become the neoplasm of greatest relevance, with rates that are still increasing or showing a plateau, depending on the time from the ban. Little is known about epidemiology of asbestosis and lung cancer, as well as of mesothelioma, in the countries where the use of control measures is more limited. This Special Issue will welcome contributions on asbestos-related diseases, fibers characterization, exposure assessment, risk modification with cumulative exposure, latency, and time since cessation, both for the specific asbestos types and for the asbestos-like minerals. Papers describing successful antiasbestos policies, are welcome.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase,

GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
