Department of Environment and Health, Istituto Superiore di Sanità, 00161 Rome, Italy

Dr. Carolina Mensi

Occupational Health Unit, Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, 20122 Milan, Italy

Deadline for manuscript submissions:

closed (31 January 2022)

Message from the Guest Editors

Asbestos is one of the most widespread occupational carcinogens. This Special Issue focuses on the current state of knowledge on the relationship functions between asbestos exposure and the occurrence of asbestos-related diseases and on the estimates of the health impact of asbestos at global and local level. In addition, papers on protocols for early diagnosis and health surveillance will be appreciated.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
