Deadline for manuscript submissions:
closed (28 February 2023)

Message from the Guest Editor

Dear Colleagues,

The third Sustainable Development Goal (SDG) is entitled "Ensure healthy lives and promote well-being for all at all ages, profiles health as a desirable outcome in its own right". There is much to be done when it comes to the achievement of this SDG. We are delighted to invite colleagues to submit work which supports the SDG 3 agenda. This includes a wide range of areas and issues (e.g. reproductive, maternal, newborn, child and adolescent health, mental health, vaccination, NCDs, infectious diseases and universal health coverage).

We look forward to your submissions!

Dr. Ziad El-Khatib

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
