submissions:

**closed (30 April 2024)**

### Message from the Guest Editors

Migration and migration status are key determinants of health and well-being. Global changes in migratory patterns and the climate, increasing health and social inequities, and contexts of poverty and violence impact the health and well-being of migrants.

This Special Issue of the International Journal of Environmental Research and Public Health (IJERPH) focuses on the current state of knowledge on the links between migration, migration status, and health and well-being. New research papers, methodological papers, systematic reviews, case reports, and commentaries are welcome to this issue. Empirical papers using a variety of research designs and methodologies (qualitative, quantitative, or mixed methodology) are also welcome. We will accept manuscripts from different disciplines including public health, epidemiology, psychology, geography, political science, sociology, anthropology, etc. The studies in this edition will also aim to reflect perspectives from different countries and/or regions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
