Message from the Guest Editor

Dear Colleague

This Special Issue explores current research in the field of organizational health and wellbeing. Studies highlighting the sources of occupational stress and their implications for employee health and productivity, organizational interventions to enhance health and wellbeing, the impact of employee assistance programmes on employee health and performance, meta-analyses on links between workplace stressors/individual differences and health outcomes or other psychosocial factors and their links to health and/or behavioural change are all welcome.

Professor Sir Cary Cooper

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded (Web of Science), Social Sciences Citation Index (Web of Science), MEDLINE (PubMed), Scopus (Elsevier) and other databases. Full-text available in PubMed Central.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
