Deadline for manuscript  
submissions:

**closed (30 November 2021)**

### Message from the Guest Editor

We are pleased to announce the forthcoming Special Issue on “Role of Primary Health Care in Improving Population Health” in the *International Journal of Environmental Research and Public Health*. Over the past few decades, there has been a growing interest in the contextual effect on individual health. This issue offers an opportunity to publish epidemiological studies related to the physical and social environments of neighborhoods in agricultural and rural areas. We welcome manuscripts presenting long-term and short-term cohort studies, as well as those discussing a wide range of health outcomes. We are also interested in innovative measures and methods of analysis. This Special Issue welcomes original empirical studies, systematic reviews and meta-analyses.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Paul B. Tchounwou**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
