Medicine and Global Health, The
University of Oslo, 0316 Oslo,
Norway

Message from the Collection Editor

Dear Colleagues,

This Collection will have a broad focus on women's health, but especially its role in reproduction, pregnancy and childbirth. Contraceptive use, abortion services and issues of abuse and violence are welcome. Articles that discuss quality of care for women, dignity and respect for women, women's sexuality and women's reproductive mental health are also welcome. We are also looking for articles that provide an overview of women's reproductive health in specific settings, for specific groups or specific services. Articles with policy relevance are important.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
