Message from the Guest Editors

This Special Issue will address the increasing interest in sustainable and related forms of tourism. The focus will be on the environmental and human ecological impacts. The social and economic impacts of sustainable tourism will be addressed along with its effects on the physical environment. A series of worldwide case studies on the friction between tourism development and environmental quality will be presented. The SI will offer opportunities, including policy papers not only focusing on the instruments to alleviate the environmental impacts, but also on methods for the efficient involvement of stakeholders.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and many other databases.

Journal Rank: JCR - Q1 (*Public, Environmental & Occupational Health*) / CiteScore - Q2 (*Public Health, Environmental and Occupational Health*)
