Deadline for manuscript  
submissions:  
**closed (31 December 2023)**

### Message from the Guest Editors

Dear Colleagues,

It is a great pleasure to greet you from the *International Journal of Environmental Research and Public Health*. We are inviting manuscripts for the journal's Special Issue in the form of original research, reviews, case reports, short reports, etc.

Wastewater contains many pollutants and is discharged by various sources in large amounts. The control technology and health effect of wastewater and water environment is a continuous research focus, and meanwhile, a lot of novel methods, materials, and understandings are investigated and analyzed. The aim of the Special Issue is to report the research and engineering practice progress in wastewater pollution, risk, and treatment. We are pleased to invite you to submit your manuscript on the topics of WASTEWATER and WATER ENVIRONMENT.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: wastewater pollution and ecological risk, wastewater health effect, new pollutants in wastewater, novel treatment technologies of wastewater, and wastewater management strategy.

We look forward to receiving your contributions.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
