

## Special Issue

# Advancing Environmental Sustainability: Innovations in Water Quality, Treatment, and Pollution Control

### Message from the Guest Editors

This Special Issue of International Journal of Environmental Research and Public Health (IJERPH) aims to highlight advancements that contribute to safeguarding and improving water resources. Its scope includes, but is not limited to, research on innovative water treatment technologies for emerging contaminants, industrial effluents, municipal wastewater, and measures to ensure that drinking water is free from the risk of waterborne diseases. In addition, monitoring and assessment methodologies for evaluating quality in diverse aquatic environments are significant areas of research. In this Special Issue, we would like to invite researchers to help disseminate research on new technologies that can be used to control and recover water quality.

### Guest Editors

Prof. Dr. María Belén Almendro-Candel

Department of Agrochemistry and Environment, University Miguel Hernández of Elche, 03202 Elche, Spain

Dr. Ana Pérez-Gimeno

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
