Topical Advisory Panel Members' Collection Series: Models in Economic Evaluations of Pharmaceuticals

Message from the Guest Editors

We are pleased to announce this Special Issue titled “Topical Advisory Panel Members' Collection Series: Models in Economic Evaluations of Pharmaceuticals”. This will be a Special Issue of papers from researchers invited by the Topical Advisory Panel Members. This Special Issue aims to provide a venue for networking and communication between *IJERPH* and scholars in the field of health economics and economic evaluation of health care goods and services such as drugs, patient care intervention(s), and health care programs. Its scope includes but is not limited to economic burdens of disease, cost-effectiveness in healthcare, health technology assessment, and the economic evaluation of health interventions. All papers will be published with full open access after peer review.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
