

Special Issue

2nd Edition of Health and Wellbeing on Aging

Message from the Guest Editors

After the success of the previous Special Issue on “Health and Wellbeing on Aging”, we are pleased to invite researchers to contribute to the second Special Issue. Similarly, we welcome contributions based on interventions to improve older people’s health and wellbeing, and we hope to receive manuscripts from a broad spectrum of geographical, cultural, and economic settings, which may include original research, review articles, case series, and opinion papers. I would like to invite the submission of manuscripts covering both qualitative and quantitative research in the following areas:

- Polymedication in older patients;
- Risk management and safety of medicines in older patients;
- Healthy aging;
- Physical activity and aging;
- eHealth and the elderly;
- Sustainability of aging populations;
- Health service policies for older people;
- Support systems care for use by older people.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
