

## Special Issue

# Health and Safety Promotion at the Workplace

### Message from the Guest Editor

We welcome high-quality original contributions, including randomized controlled trials (RCTs), quasi-experimental studies, reviews, implementation evaluations, and mixed-methods research that examine interventions aimed at improving worker health, safety, and well-being. Topics of interest include, but are not limited to, mental health promotion, occupational injury prevention, organizational safety culture, participatory design approaches, and policy or regulatory innovations. We welcome interdisciplinary contributions that explore the social, physical, and organizational determinants of workplace health and safety. Submissions may address a range of topics, including mental health promotion, ergonomics, injury prevention, workplace equity, participatory design, and regulatory or policy innovations. We particularly encourage submissions focused on underrepresented, diverse, or high-risk worker groups and studies that consider equity, sustainability, and systems-level change. We look forward to your submissions that support the creation of healthier, safer, and more inclusive workplaces.

### Guest Editor

Dr. Elizabeth Stratton

1. Faculty of Medicine and Health, Central Clinical School, University of Sydney, Camperdown 2006, Australia
2. Australian Research Council (ARC) Centre of Excellence for Children and Families Over the Life Course, Sydney 2006, Australia

### Deadline for manuscript submissions

30 May 2026

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
