

Special Issue

The Storm Ahead: Advancing Health Literacy and Equity in the Face of Emerging Threats and Systemic Disparities

Message from the Guest Editors

This Special Issue aims to explore the intersection of health disparities and health literacy, with a focus on actionable solutions that empower communities and reduce inequities. Topics of interest include, but are not limited to, the following:

- Disparities in health literacy and their impact on access to care and health outcomes.
- Community-based programs and interventions that improve health literacy in underserved populations.
- Strategies to address social determinants of health through health literacy initiatives.
- The disproportionate health impacts of climate-related events on marginalized communities.
- Interventions that integrate health literacy into climate resilience efforts.
- Policies and community-based initiatives that address the intersection of climate change, environmental health hazards, and health equity.
- Maternal and child health disparities linked to health literacy gaps.
- The role of stress and aging in health disparities, with a focus on the cumulative effects of life course exposures.
- Policy analyses and recommendations for advancing health literacy and equity in public health systems.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
