

Special Issue

3rd Edition of Stigma, Health and Wellbeing

Message from the Guest Editors

Stigmas can be conceptualized as the co-occurrence of the following: (i) distinguishing differences and labeling; (ii) negatively stereotyping those who are labeled as different; (iii) separating labeled people from unlabeled people (e.g., using “us” vs. “them”); (iv) emotional reactions, such as anger and hatred, among both those who do the labeling and those who are labeled; (v) the labeled group experiencing status loss and discrimination; (vi) the economic, social, political, and power domains that enable these processes to unfold. In this Special Issue, we still intend to address this knowledge gap and invite the submission of papers that explore and shed light on the relationship between stigmatization and any aspect of health. If you have an idea and do not know whether it falls into the scope of this Special Issue, you may contact either one of the (or).

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
