

## Special Issue

# E-cigarettes and Vaping Products: Health Effects and Toxicological Impacts

### Message from the Guest Editor

For this Special Issue, we invite authors to contribute studies that focus on the short-term and long-term health effects and toxicological impacts of e-cigarettes, particularly on the cardiovascular, respiratory and reproductive systems. Manuscripts that deal with second-hand exposure to aerosol from Electronic nicotine delivery systems are also encouraged. We also seek studies focusing on electronic nicotine devices in addition to e-cigarettes, including e-cigars, e-pipes and e-hookahs, the latter of which are used through traditional water pipes, allowing the flavored aerosol to pass through water, cooling and potentially altering the vapor, before being inhaled. We will evaluate other types of articles, such as systematic reviews (and meta-analyses) and commentaries pertaining to the topics listed above. We hope that this Special Issue will help fill in gaps in our understanding of the impact of e-cigarettes and vaping product use and, in doing so, could provide important scientific knowledge to inform regulatory efforts to protect public health.

### Guest Editor

Dr. Mary Rezk-Hanna

School of Nursing, University of California, 700 Tiverton Avenue, Los Angeles, CA 90095, USA

### Deadline for manuscript submissions

closed (21 January 2025)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
