# **Special Issue**

# Mental Health Associated with Bullying and Cyberbullying Across the Lifespan

# Message from the Guest Editors

This Special Issue invites original research that critically examines the complex interplay between bullying, cyberbullying, and mental health in different cultural and environmental contexts and across different life stages. Given the global nature of these phenomena, we particularly encourage cross-national, comparative, and culturally sensitive studies that reflect the international scope of current scholarship. Beyond the individual and interpersonal effects, bullying and cyberbullying represent a significant public health problem and have a tangible impact on environmental health. We therefore seek contributions that consider systemic factors—such as school climate, workplace culture, digital infrastructure, social inequality, policy environment, and access to support services—as integral to both risk and prevention. By emphasizing interdisciplinary, crossmethod, and longitudinal approaches, this Special Issue aims to advance research-based strategies for prevention, early intervention, and public health policy on a global scale.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
