

Special Issue

Population Health: Infectious Disease Research

Message from the Guest Editor

For this Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)*, we invite the submission of manuscripts exploring any topic related to infectious disease and human health, including those that will contribute to or influence infectious disease prevention, mitigation, control and management. Manuscript types accepted can include but are not limited to new research papers, systematic reviews and meta-analyses, methodological papers, brief reports and position papers. Infectious diseases to be addressed can include but are not limited to emerging or re-emerging infectious diseases and neglected tropical diseases. We will accept manuscripts from different disciplines including epidemiology, public health, environmental health, travel medicine, infectious disease modelling, immunology, and microbiology among others.

Guest Editor

Prof. Dr. Christos Hadjichristodoulou
Laboratory of Hygiene and Epidemiology, University of Thessaly, 382 21
Larissa, Greece

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
