

Special Issue

New Research on Mental Health in Sport

Message from the Guest Editor

This Special Issue will be focused on mental health in sport. Specifically, we are seeking submissions that characterize the mental illness risk mitigation, prevalence of mental illness, improvements to mental wellness, and post-injury mental health among the athlete and physically active populations. Submissions are welcome from sports medicine and counseling professionals, including athletic training, sports medicine and orthopedic physicians, physical therapy and other rehabilitation scientists, mental health counselors, psychologists, psychiatrists, as well as any others focused on the mental health and wellness of athletes. The Special Issue will highlight the various mental wellness challenges faced by today's athletes but also explore prevention and intervention mechanisms.

Guest Editor

Dr. Lindsey Eberman

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
