

Special Issue

Effects, Control and Remediation of Soil and Water Pollution

Message from the Guest Editor

This Special Issue of International Journal of Environmental Research and Public Health focuses on the effects of introduction of organic and inorganic contaminants, such as halogenated and non-halogenated organics (chloroform, perfluorinated compounds, polychlorinated biphenyls, polybrominated diphenyl ethers, etc.), pharmaceuticals, metals, metalloids, non-metals, microplastics, etc., into soil and water. It is also related to the control and remediation of soil and water pollution caused by the above mentioned substances. Potential topics include, but are not limited to: soil and water remediation methods, effects of soil and water pollution with organic and inorganic contaminants, impact of heavy metals on soil, water and plants (including aquatic plants), removal of pharmaceuticals from water, control of soil and water pollution, and assessment of risk related to introduction of pollutants into soil and water.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
