

Special Issue

Promoting Physical, Mental, and Social Wellbeing in Adults with Hearing Loss: Working Toward Person-Centered, Holistic Care

Message from the Guest Editors

This Special Issue will bring together cutting-edge research and practice reports that explore the complex, multidimensional needs of adults with hearing loss. We welcome contributions exploring health promotion, behavior changes, psychosocial support, physical activity interventions, and the integration of digital health solutions into routine audiological care. Interdisciplinary approaches that bridge audiology, psychology, public health, and rehabilitation sciences are particularly encouraged. By advancing our understanding of how to promote physical, mental, and social wellbeing in this population, this Special Issue will inform holistic, person-centered strategies that move beyond hearing loss management toward supporting healthier lives for adults living with this condition.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens
University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
