

Special Issue

The Impact of Family Capabilities on the Wellbeing and Mental Health of Family Members

Message from the Guest Editors

The articles in this issue examine the various influences of family capabilities, specifically their actions, concerning family members' wellbeing and mental health. They focus on various methodologies and research designs but exclude protocols. The goal is to contribute to a deeper understanding of how family-centred approaches can enhance mental health and overall quality of life.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
