

## Special Issue

# Treatments, Care Pathway and Organizational Issues in Emergency Medicine

### Message from the Guest Editor

In this special issue we aim to highlight original perspectives regarding treatment, care pathway and organizational issues regarding this new context. Any Emergency location will be considered. We expected to encourage submissions from contributors in a large population of health providers. All thematic will be considered, but with a particular interest for: Pain management, Blood management, Prevention of Drug Misuse, and Sepsis management. Patient-centered researches will be favored, but evaluation of professional practices and Health-professional management will be also considered, as long as they are focused on care pathway, decision-making, barriers to innovation, or on treatment compliance.

### Guest Editor

Dr. Virginie Ève Lvovschi

1. Service d'Accueil des Urgences—SAMU 69, Centre Hospitalier Universitaire Edouard Herriot, 69003 Lyon, France
2. Laboratory "Research on Healthcare Performance" (RESHAPE), INSERM U1290, Université Claude Bernard Lyon 1, 69008 Lyon, France

### Deadline for manuscript submissions

closed (30 March 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
