

Special Issue

Editorial Board Members' Collection Series: Obesity Treatment & Management in the Primary Care Setting

Message from the Guest Editor

We are pleased to announce this topic collection titled "Editorial Board Members' Collection Series: Obesity Treatment & Management in the Primary Care Setting". This Issue will be a collection of papers from researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between *IJERPH* and scholars in the field of obesity treatment and management care. All papers will be fully open access upon publication after peer review.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief
