

Special Issue

Advancing in Tobacco Control and Public Health Policy amidst the COVID-19 Pandemic

Message from the Guest Editors

Papers addressing any topics related to the impact of the COVID-19 pandemic on tobacco control and public health policies; smoking cessation services; behavioural change among tobacco users; tobacco industry activities; tobacco products; etc. are invited for this Special Issue. The Issue will provide discussion on how to advance tobacco control policy and services based on the various case studies, and suggest ways to protect people from tobacco when we are facing a new pandemic similar to COVID-19.

Guest Editors

Dr. Sungkyu Lee

Prof. Dr. Yu Jin Paek

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
