

Special Issue

Breast Cancer Genetics

Message from the Guest Editor

For this Special Issue of the International Journal of Environmental Research and Public Health, we invite research papers, reviews, case reports, methodological papers, brief reports, and commentaries on breast cancer genetics (including risk assessment, prevention, detection, and treatment), racial disparities; breast tumor microbiome; pharmacogenetics; genetic ancestry; and admixture mapping. Genetic, epigenetic, and transcriptome-wide association studies on etiology, incidence, behaviors, mortality, and other factors relevant to breast cancer genetics are welcome. International submissions are encouraged.

Guest Editor

Dr. Athena Starlard-Davenport

Department of Genetics, Genomics and Informatics, College of Medicine, University of Tennessee Health Science Center, Memphis, TN 38163, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
