

## Special Issue

# How Reproductive Life Events Influence Women's Mental Health

### Message from the Guest Editor

Overall, understanding the relationship between reproductive life events and women's physical and mental health is paramount for developing targeted diagnostic tools, effective interventions that take into account structural inequities, and support systems to provide holistic care. We invite submissions for a Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)* that will explore this relationship between reproductive life events—as defined above—and women's mental and physical health. Submissions will undergo peer review, and acceptance will be based on creativity, significance, and methodological rigor. We welcome empirical research studies, systematic reviews, theoretical papers, meta-analyses, and innovative approaches to patient-centered care.

### Guest Editor

Dr. Misty C. Richards

Jane and Terry Semel Institute for Neuroscience and Human Behavior at UCLA, Department of Psychiatry and Biobehavioral Sciences, David Geffen School of Medicine, University of California, Los Angeles, CA 90095, USA

### Deadline for manuscript submissions

closed (28 February 2025)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
