

Special Issue

Evidence-Based Behaviour Change Interventions in Healthcare

Message from the Guest Editors

This Special Issue of *IJERPH* aims to promote new insights into evidence-based behaviour change interventions, thereby helping to define and prioritize high-quality educational research. We invite you to submit papers addressing this theme. There are no limitations regarding manuscript types. Some examples of manuscripts that we will accept are:

- Reviews of evidence-based behaviour change or educational interventions.
- New research on the implementation of one or more evidence-based behaviour change or educational interventions in healthcare.
- Series of Case Reports describing outcomes of a behaviour change intervention.
- Conference Papers focusing on proceedings relevant to the theme.
- Commentaries and Letters to the Editor will be considered too.
- Other manuscript types that have not been mentioned may be considered, as long as they are relevant to the topic.

We look forward to receiving your submissions and furthering scientific research pertaining to evidence-based behaviour change.

Guest Editors

Dr. Simão Alves Pinho

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
