

Special Issue

Psychological Impact of the COVID-19 Pandemic on Healthcare Workers

Message from the Guest Editors

This Special Issue of the *International Journal of Environmental Research and Public Health* will be devoted to the Psychological Impact of the COVID-19 Pandemic on Healthcare Workers. Since December 2019, the world has been facing the outbreak of coronavirus disease (COVID-19), described as the worst public health crisis in a generation. It has caused an unprecedented situation for citizens, policymakers, politicians and healthcare professionals. More specifically, healthcare professionals dealing with COVID-19 have been under increased psychological pressure and are likely to experience high rates of psychiatric morbidity. In light of these unprecedented pandemic circumstances, it is highly important to acknowledge the psychological impact of this experience on healthcare professionals (acute and longer term) and to increase scientific knowledge about this topic. We aim to publish a series of high-quality articles on mental health issues related to the pandemic experience on healthcare workers. We encourage you to submit original and empirical studies as well as reviews.

Guest Editors

Dr. Esperanza L. Gómez-Durán

Department of Medicine, International University of Catalonia, 08195 Barcelona, Spain

Dr. María Dolores Braquehais

Integral Care programs for Sick Healthcare Professionals, Clínica Galatea, Fundació Galatea, Col·legi Oficial de Metges de Barcelona, 08017 Barcelona, Spain

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
