

## Special Issue

# Digital Interventions for Mental Health and Well-Being

### Message from the Guest Editor

This Special Issue of the *IJERPH* invites contributions on all of these topics that summarize or challenge the current state of knowledge, advance our understanding of the role and impact of DHI and other digital tools in mental health and well-being from a public health perspective, and provide novel insights into new developments, methods, concepts, outcomes, or technologies in this area. Submissions from underrepresented communities, such as LMICs or indigenous populations, are especially welcome. Papers are expected to adhere to high academic standards (e.g., following [EQUATOR network guidelines](#)) and ideally adhering to Open Science principles (e.g., Open Data; see [IJERPH instructions for authors](#)). Prof. Dr. Tomczyk Samuel

### Guest Editor

Prof. Dr. Samuel Tomczyk

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
