# **Special Issue**

# Determinants of Health and Well-Being in at Risk Populations

# Message from the Guest Editor

This Special Issue aims to increase our knowledge of the protective and risk factors of certain behaviors that entail a significant deterioration of health, well-being, and quality of life in several populations. Deepening the study of the modification of unhealthy behavior patterns would provide important knowledge and information of unquestionable value for clinical practice and research, fundamentally for the development and application of intervention programs for health promotion and quality of life improvement. This would be especially important in at-risk populations that develop lifestyles that lead to health deterioration. Moreover, these contributions will be of great relevance for the implementation of new public health policies, which would reduce health costs by preventing risk behaviors and promoting healthy lifestyles.

### **Guest Editor**

Dr. Natalia Alabaldejo Blázquez

Department of Health Psychology, Faculty of Health Science, University of Alicante

### Deadline for manuscript submissions

closed (31 December 2021)

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
