

Special Issue

Digital Health in South Africa

Message from the Guest Editor

Researchers and practitioners in this field have been focusing on the use and evaluation of digital health technologies, such as mobile phones and health-related phone applications, sensors, devices, telehealth and the use of artificial intelligence (AI) and/or other novel computational and statistical approaches. This Special Issue is open to the subject area of digital health in Africa. The keywords listed below provide an outline of some of the possible areas of interest:

- mHealth including mobile applications for health promotion and point of care mHealth services;
- Electronic Health records and eHealth platforms;
- AI computational and statistical approaches to improve health decision making and prediction;
- Telehealth and telemedicine for educational and clinical services;
- Smart sensors and wearable devices;
- Geolocation and geopositioning in the detection of disease;
- Social media monitoring;
- Ethical legal and social issues in digital health;
- Cost and effectiveness of digital health interventions.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens
University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
