

Special Issue

Epidemiology and Prevention of Diabetes

Message from the Guest Editor

Given the importance of diabetes, the journal *International Journal of Environmental Research and Public Health* is launching a Special Issue entitled “Epidemiology and Prevention of Diabetes” with the aim of gathering together accurate and up-to-date scientific information on all aspects of diabetes. We are pleased to invite you and your co-workers to submit your original research articles reporting on health-related quality of life, mental health, health services utilization, disability, pain, comorbidities, hospitalizations, and pharmacological interventions. We would also like to invite you to submit review articles aimed at providing a comprehensive overview of the epidemiology and prevention of this disease.

Guest Editor

Prof. Dr. Ana López De Andrés

Preventive Medicine and Public Health Teaching and Research Unit,
Health Sciences Faculty, Rey Juan Carlos University, 28922 Alcorcón,
Madrid, Spain

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
