

## Special Issue

# Disabilities – Constant Quest in Medical, Social and Political Records

### Message from the Guest Editors

Physically and mentally disabled people constitute an increasing percentage of the population worldwide. Most of them are unable to fulfill normal social roles, and their everyday life is limited. In people with disabilities, a high incidence of comorbidities is observed, which is consequently associated with a lower level of well-being and low quality of life. Evaluating the association between health status and social, cognitive, and psychological factors in a global sample of persons with mild-to-severe disabilities of both types is of the greatest importance in every society. This will make it possible to refine diagnostic strategies and implement procedures improving the health condition and, consequently, the quality of life of this group of people. Authors who decide to submit papers to the Special Issue will have a great opportunity to share their knowledge on disabilities, in both children and adults, regarding medical, epidemiological, social, and political aspects.

### Guest Editors

Prof. Dr. Beata Karakiewicz

Prof. Dr. Karolina Skonieczna-Żydecka

Dr. Paulina Zabielska

### Deadline for manuscript submissions

closed (21 December 2022)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
